## Chapter 1: Waterford and the Development Plan

**Caibidil:** Volume 1 » Part 1: Vision and Strategy » Chapter 1: Waterford and the Development Plan

Attached is our vision of a collaborative future for the Copper Coast UNESCO Global Geopark, building on what has been achieved so far and exploiting the multi-faceted heritage of Co Waterford within and around the Geopark area.

The Geoparks philosophy is to make full, sustainable use of the natural, cultural and industrial heritage from the earth up to develop a sense and pride of place and community as well as encouraging and supporting local enterprise and tourism using local resources.

We strongly believe that in collaboration with the Council and local communities we can maintain and develop a living heart to County Waterford.
